## ***ACT ON THE INTRODUCTION OF SCIENTIFIC WORKS***

We hereby confirm that the obtained results of research under the subprogram "Development of Digital Infrastructure of Research and Development" (under the project of program-targeted financing "Kazakhstan's way to a knowledge-based economy on the third technological modernization: strategy, models and mechanisms of development") have scientific significance and practical interest. It is our great pleasure to include the methodological development and implementation of organizational aspects of modern models of social research in the development of digital infrastructure, models of digital social research, algorithms and standards of the information system model, transitions (actions) of the user of the WEB-model of the information system. It is need to highlight the scientific and practical importance of the organization of work on the implementation of the information system according to the requirements of MSF. The proposed stages of design and creation of the information system will be used in Seoul National University Hoam Faculty.

Sincerely yours,

Jung Wan Lee, Ph.D., President of the
